*Between 1963 and 1970, 2,395 DOs accepted unearned MD degrees from the California College of Medicine and were removed from AOA's statistical reckoning.
†In 1935, there were 8 osteopathic colleges producing graduates; by 1963 there were only 5. In the period between 1973 and 1985, the number of colleges graduating students increased from 6 to 15.

Some physicians may hold more than one certification. Thus, the figures do not reflect the total number of individuals holding certification except in a given category.

Further, the figures do not accurately reflect type of practice. Besides the number certified in general practice, for example, a majority of non-certified DOs are also engaged in this field. Besides those listed for a given specialty, there are DOs whose nonosteopathic or informal training has prepared them for specialty practice. The total number of certified DOs is 7,559.
